

## Cambridge SupTech Lab Analyst

[Apply Now](#)

Company: Financial Innovation for Impact Fii

Location: Manama

Category: computer-and-mathematical

Conduct administrative management of the existing set of digital tools falling under the “intelligence” pillar, namely the SupTech Vendor Database, SupTech Solutions Tracker, Open Data Library, OpenCode Repository

Hold responsibility for the accuracy and timeliness of data underlying these tools, including via active and continuous desk research, solicitation of inputs from the core team, engagement in relevant events, etc.

Deliver highly valuable product analytics and reporting to extend richer understanding of the tools’ users and tools’ performances.

Assist with development and maintenance of data schema and data sources for these tools, and study data and analyze trends to answer critical business and product questions.
