

## Electronics Technician 3 (S) - Manama, Bahrain

[Apply Now](#)

Company: Tanqeeb

Location: Manama

Category: other-general

Install and maintain electronic security systems

Participate in review of design documentation and system for installation and maintenance activities

Execute installation and maintenance activities within planned durations

Complete high-quality device and component installation activities and maintenance activities

Participate in configuration of servers, workstations, panels, and other programmable components under supervision

Execute testing to verify high quality installations

Execute testing to identify and correct system problems at component and system levels as part of system sustainment activities

Install system raceway

Install system cabling

Terminate and test system cabling and all components

Install equipment racks, enclosures, panels, and all mounting hardware components

Meet all attendance requirements and working hours of the assignment

Communicate effectively with supervisors

Incorporate, follow, and always reinforce all required safety practices

Complete detailed and accurate as-built, testing, and quality control documentation

Participate in logistics planning for personnel and equipment

Perform as a reliable contact for field operations with the customer representatives

### **Responsibilities:**

Applying and analyzing complete M.C. Dean drawing packages

Documenting necessary redlines to drawings in the field

Assisting engineers with drawing set updates per redlines

Utilizing project schedules to develop and update Four Week Look Ahead forecasts

Completing SES project documentation per M.C. Dean standards including, but not limited to Change Orders, Requests for Information (RFIs), Detailed Daily Reports, Takeoff Sheets and Daily Time

Leading teams on small moderately complex installation projects

Conducting and documenting daily toolbox talks

Installing all head end equipment at both the local and global level per design packages

Programming head end equipment for Access Control, Intrusion Detection and CCTV systems

Troubleshooting and isolating both systems and/or hardware at both a local and global level

Troubleshooting and resolving head end programming issues

Developing quality control punch lists (i.e., Daily Lists, Performance Verification Testing and Final Acceptance)

Assigning support and trouble tickets in IMMS and ensuring issues are resolved

Managing small groups of more junior Technicians and/ or Apprentices as needed

**Specific position requirements are as follows:**

An active DoD Secret security clearance is required

Must have a valid passport and be willing to relocate to Manama, Bahrain

Requires a HS diploma or GED

Requires a Valid driver's license

This position may require ongoing or intermittent use of a company vehicle. Selected candidates must possess an acceptable driving record in accordance to our policy

8+ years of electronics installation and/or maintenance activities on multiple systems and with multiple customer programs

Attention to detail in the execution of Performance Verification Tests

Troubleshoot and repair electronic security systems as well as perform regularly scheduled Preventative Maintenance

Strong communication and writing skills

Vendor certifications in multiple IDS, ACS, and CCTV systems

**Specific desired experience, skills and certifications are as follows:**

CompTIA Security+, Lenel, Pelco, Honeywell, Intrepid, Ground Base Radar, Under Vehicle Inspection System (UVIS), Electronic Harbor Security System (EHSS), TASS

(Technical Automated security System), and Milestone certifications and experience in installation of said systems

**Formal Electronics training as follows:**

Military Electronics Training (minimum classroom hours) or

Graduation from an accredited Electronics Technician program or

Graduation from an Electrical Apprenticeship program or

An additional three years of electronics installation and/or maintenance activities

MDI, Lenel, Pelco, Honeywell, Intrepid, Ground Base Radar, Under Vehicle Inspection System (UVIS), Electronic Harbor Security System (EHSS), TASS (Technical Automated security System), and Milestone certifications and experience in installation of said systems

Travel: Up to 50%

**Abilities:**

Lifts at least 50 pounds at one time and 60 pounds for an extended period of time

Relocates a 12 foot stepladder without assistance

Works at various heights up to 60 feet and can climb and maintain balance on scaffolds, aerial lifts, catwalks and all types of ladders

Walks, climbs, lifts, squats, crawls, kneels, pushes, pulls and reaches overhead on a routine and repetitive basis

Possess good vision (may be corrected vision), the ability to see in color, and the ability to hear and communicate in English

May use a standard ladder without exceeding the weight limit while carrying tools

Tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem

Apply general rules to specific problems to produce answers that make sense

Combine pieces of information to form general rules or conclusions (including finding a relationship among seemingly unrelated events)

See details at close range (within a few feet of the observer)

Listen to and understand information and ideas presented through spoken words and sentences

Applicants for this position may be required to prove that they have received the COVID-19 vaccine or demonstrate that they have a valid religious or medical reason not to be vaccinated.

**EOE Minorities/Females/Protected Veterans/Disabled**

**VEVRAA Contractor**
