

Engineering Manager Ubuntu Server Distribution

[Apply Now](#)

Company: Canonical

Location: Manama

Category: other-general

Build and lead a globally distributed team of engineers

- Develop talent through coaching, mentoring, feedback and hands-on career development
- Work with Product Management to define the vision and strategy for Ubuntu and your team
- Effectively set and manage expectations with other engineering teams, senior management, and external stakeholders
- Advocate and advance modern, agile software development practices
- Develop and evangelize great engineering and organizational practices
- Grow a healthy, collaborative engineering culture in line with the company values
- Be an active part of the leadership team and collaborate with other leaders in the organisation
- Participate in strong engineering process through code and architectural review
- Engage with teams at Canonical, the open source community and commercial partners
- Oversee the quality of the Ubuntu Server image family
- Plan and deliver Ubuntu Server features
- Work from home with global travel for up to 6 weeks per year for internal and external events
