Senior Devops Engineer

Apply Now

Company: Handelnine Global

Location: Manama

Category: computer-and-mathematical

Handelnine Global is an e-commerce company with a global presence, operating multiple stores across various geographies.

In line with our rapid growth and the scaling of our operations, we are looking for a **Senior DevOps Engineer** to lead our infrastructure enhancements.

Our infrastructure, primarily hosted on AWS, is undergoing significant enhancements to support our growth and expansion. This includes a strategic migration from ELB & ECS to Kubernetes, alongside the utilization of a comprehensive suite of AWS services such as RDS, OpenSearch, and ElasticCache.

Key Projects:

Infrastructure Cost Optimization initiatives aimed at reducing expenses while maintaining high performance.

Achieving PCI-DSS Certification to ensure the security and compliance of our payment processes.

Designing and executing the production infrastructure for SaaS Products, ensuring scalability, reliability, and security.

Ongoing Responsibilities:

Kubernetes and ECS Deployments: Lead ongoing deployment efforts, ensuring high availability, scalability, and fault tolerance.

Infrastructure Optimization:Fine-tune our Kubernetes clusters for efficient and optimalresource usage.

Infrastructure Assessment:Conduct thorough evaluations to determine the feasibility andbenefits of migrating certain resources from AWS to dedicatedinfrastructure solutions.

Innovation inSolutions: Propose and implement innovative ideas and strategiesfor infrastructure optimization and costsavings.

CI/CD Pipeline Management: Manage andoptimize GitLab CI/CD pipelines for streamlined and automateddeployment processes.

IAM Management: OverseeIdentity and Access Management (IAM), ensuring secure andcontrolled access to our AWSresources.

Qualifications:

Proven experience as a Senior DevOpsEngineer or DevOps Architect, with a strong emphasis on AWS andKubernetes environments. Previous experience with dedicatedinfrastructure is also useful.

Extensivebackground in managing and optimizing AWS services, including RDS,OpenSearch, and ElasticCache.

Demonstratedability in developing cost-saving strategies and executinginfrastructure optimization projects.

Priorbackground in industries requiring PCI-DSS compliance or handlingof secure payment transactions, demonstrating an understanding ofpayment security standards and bestpractices.

Excellent problem-solving skills,with the ability to think innovatively and outside thebox.

Strong communication and collaborationskills, capable of delivering clear, strategic recommendations andworking effectively acrossteams.
